

Marking Schema

Arctic Skills 2018

Skill: Health And Social Care _____

Competitor Name: _____ Country: _____

Sub Criterion: **CARDIOPULMONARY-RESUSCITATION / ADULT**

Aspect of Sub Criterion – Description	Max Mark	Competitor Points
1. Finds out if a person can be awakened. (0,5) -Speaks loudly (0,5) and shakes. (0,5)	1,5	
2. Calls for the additional assistance from the emergency number 112. (1) -Calls him-/herself and puts the phone on the loudspeaker function or asks another person to call. (1)	2	
3. Opens the respiratory tracts. (1) -by bending the head backwards and lifting up the jaw(1)	2	
4. Checks if the respiration is normal: -feels on the cheek if the air flowing can be felt(1) -checks if the chest rises(0,5) -listens to the sound of respiration (0,5)	2	
5. Starts the CPR: -finds the right spot to press. (1) -ensures the hand pressure position. (1)	2	

<p>6. Pushes 30 times on the middle of the chest(1)</p> <ul style="list-style-type: none"> -presses on a piston-like motion. (0,5) -presses at a heart rate of at least 100 times, not more than 120 times a minute. (0,5) -presses at a depth of 5-6 cm. (0,5) -counts the number of pressures aloud. (0,5) 	3	
<p>7. Opens the airways. (1)</p> <ul style="list-style-type: none"> -by bending the head backwards and lifting up the jaw.(0,5) 	1,5	
<p>8. Blows 2 times into the lungs. (1)</p> <ul style="list-style-type: none"> -Closes the nostrils with the forefinger and the thumb.(1) -Places his or her mouth tightly in the mouth of a person.(0,5) -Blows peacefully.(0,5) -Follows the chest movement.(0,5) -The series of blows may take 5 seconds.(0,5) 	4	
<p>9. Continues the CPR at the rhythm of 30 pressures, 2 blows until the responsibility passes to the skilled person, the respiration is restored or the helper can't resuscitate any longer:</p> <ul style="list-style-type: none"> -continues the resuscitation with the right rhythm without breaks. -continues the resuscitation with the right CPR technique <p>(all of these must take place to get 1 point)</p>	1	
<p>10. Helper's order of operation is correct 1-9 (from 1 to 9)</p> <p>(all of these must take place in right order to get 1 point)</p>	1	
	20
